

Employee Navigator

The Power of Simplicity

www.employeenavigator.com

Think you can't get in front of every client, every day?

We've got the only app that puts you there!

Employee Navigator's new mobile app is the first of its kind, and puts you in front of your clients by putting real-time benefits and HR information in the palms of their hands. Now you can help your clients' employees better understand and access their benefits while reminding them about your agency – how to reach you, what other products and services you provide, and what value working with you brings.

Part of Employee Navigator's new *Essentials* suite of broker products, our mobile app is a tool that you can afford to provide and that your clients can't afford to be without. Find out what Employee Navigator *Essentials* can do for you! Contact Marty Hobbs at (301) 583-5182 or Norma Gregorio at (703) 734-2706 for details.
